Background:

Sunstorm is one of the two sole survivors of the destruction of Earth. Traumatized by the event, he leads a nomadic existence in his spaceship, the Raytracer. He works as a bounty hunter for whoever is willing to pay him, which barely makes him enough to stay alive. Sunstorm is bitter towards alien races and too messed up to take revenge for the destruction of his home planet.

Luna, the other sole surviving Terran and his girlfriend, provides the last spark of hope Sunstorm is clinging to like a pit bull to the hose of a pair of pants. This is Sunstorm's only drive to stay alive. The realization that his relationship with Luna is the only thing that stands between humanity and its complete and permanent extinction lingers in the back of his head.
